- Experience working in a process-driven environment
- Strong communication skills
- An appetite for personal learning and development.

Desirable skills

- Magento experience - 1+ year
- Experience of CSS preprocessors (SASS / LESS)
- Framework knowledge eg jQuery, AngularJS
- A good understanding of Linux-based hosting environments
- A working understanding of internet architecture
- An interest in the state and shape of the web industry.

Key responsibilities

- Working in a professional creative environment, this role involves:
- Collaborating with members of the team
- Helping us in shaping our solutions and process
- Interpreting requirement briefs, specifications, wireframes and designs
- Realising designs in HTML/CSS/Javascript
- Occasionally developing web applications using new technologies such as Angular
- Problem solving minor issues on existing sites.
